- ① **CEHv13 Modules:** This section contains all CEH modules from Modules 01 – 20. You can click on any module name to navigate to the module.
- ② **CEHv13 eCourseware:** This is the CEHv13 eCourseware. You can click **OPEN E-BOOK** to access the study guide for the respective modules.
- ③ **CEHv13 Practice Labs:** This section contains lab exercises. Each module offers extensive hands-on lab components that allow you to practice the techniques and procedures taught in the program in real time on live machines. You can click **LAUNCH LAB** to launch the lab range for the respective module.
- ④ **CEH Engage:** C|EH Engage is a 4-phase engagement that requires students to think critically and test the knowledge and skills gained by capturing a series of flags in each phase, demonstrating the live application of skills and abilities in a consequence-free environment through EC-Council's new Cyber Range.
- ⑤ **CEH Competitions:** This section contains CEH global competitions. These challenges occur monthly, providing capture-the-flag style competitions that expose students to various new technologies and platforms. Our Compete structure lets ethical hackers fight their way to the top of the leaderboard each month in these 4-hour curated CTFs with real operating systems, networks, tools, and vulnerabilities to practice, engage, compete, build, and hone their cyber skills against various new target organizations.
- ⑥ **CEH Competition Dashboard:** This section holds CEH Competition Dashboard.

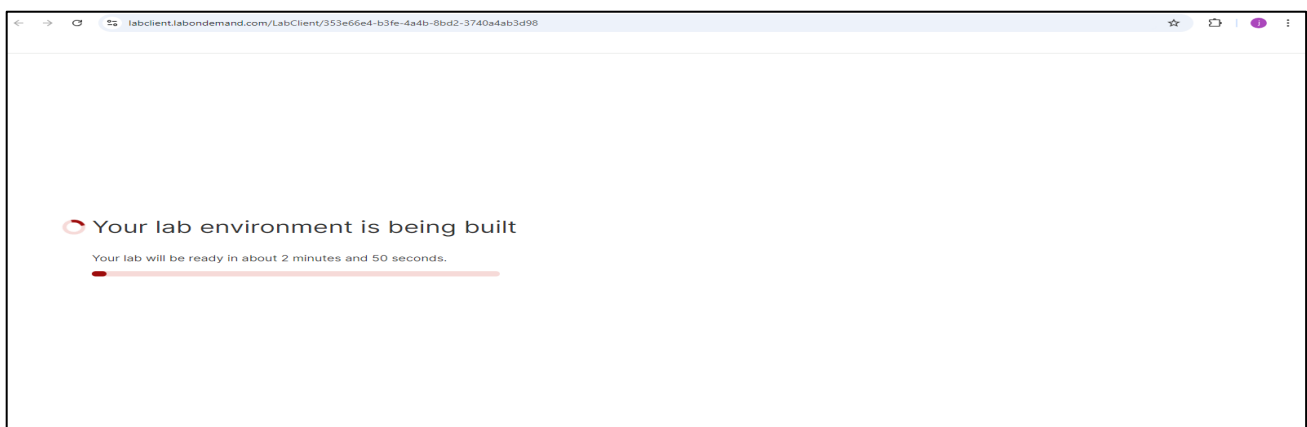

B. Accessing C|EH v13 Labs

11. Go to the module you are studying and click **LAUNCH LAB**, as shown below.

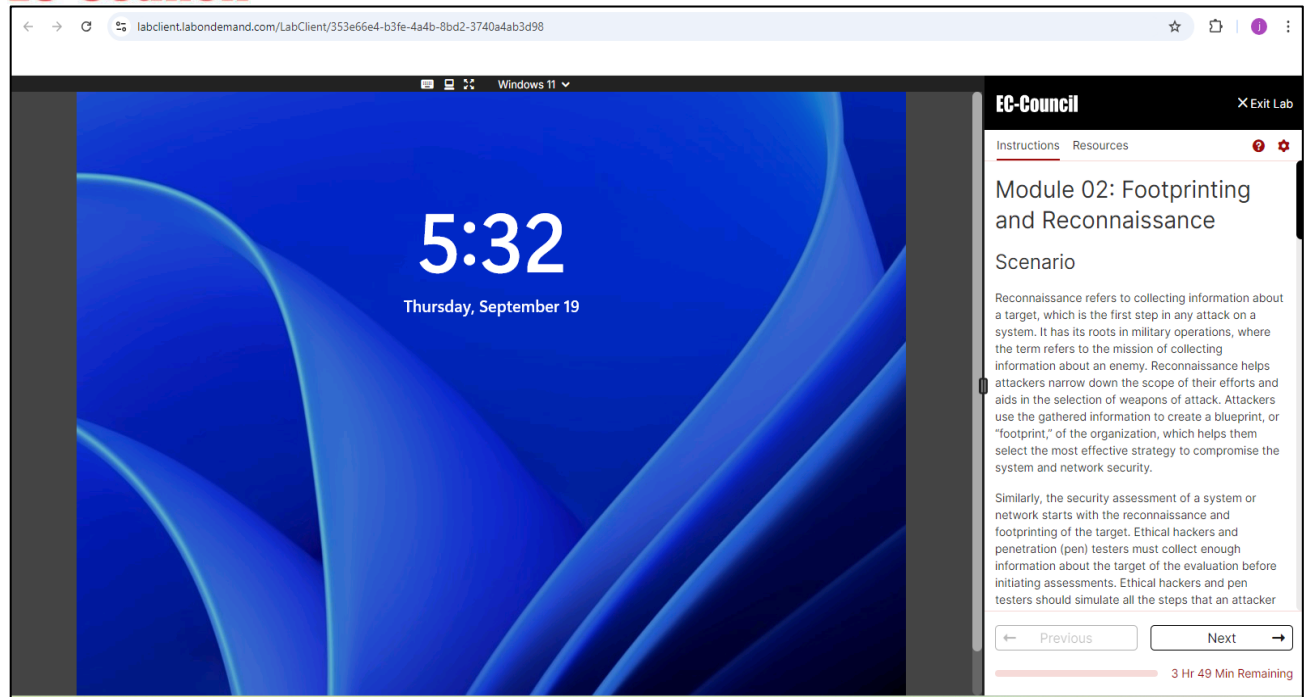

12. After clicking the Launch button, **Your lab environment is being built** page appears.

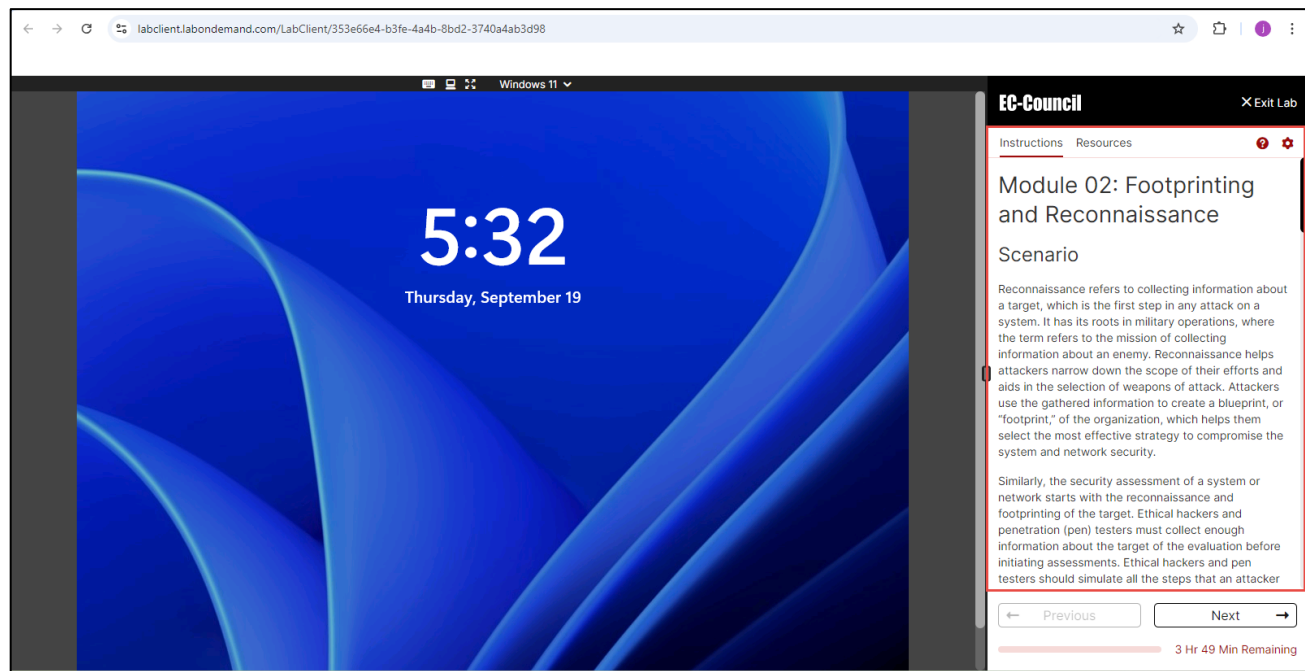

Note: It will take 2-5 minutes for the environment to be built.

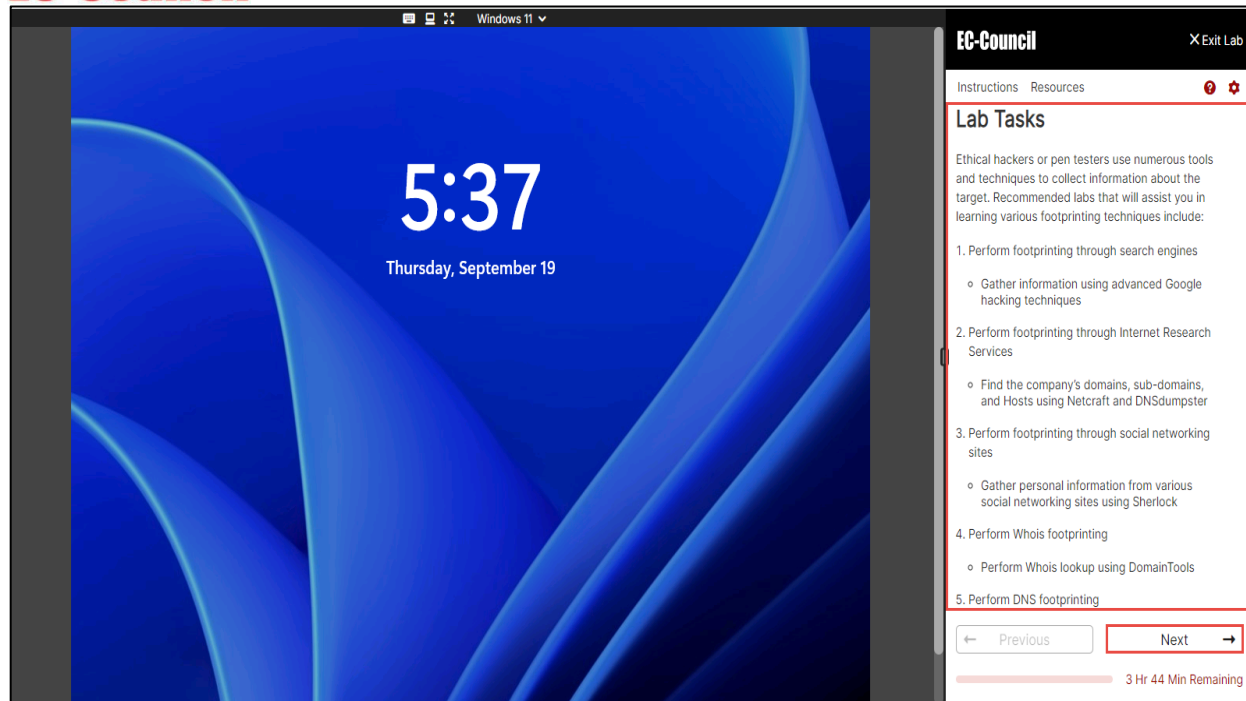

13. Once the lab environment is built, you will be redirected to the following lab page.

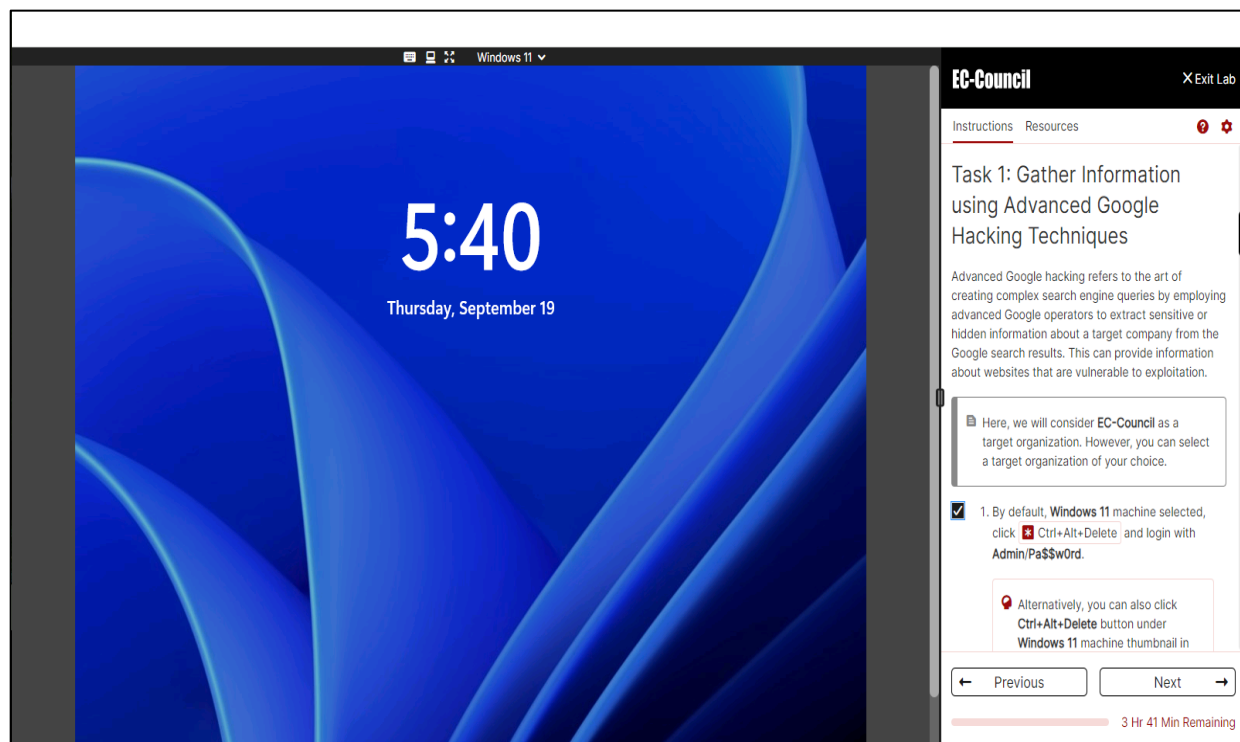

14. In the Platform you will be able to view the instructions that should be performed during the lab, at the right pane.

15. In the first page the lab objectives and lab tasks will be present. To perform the Labs click on the Next button present at the bottom right of the page.

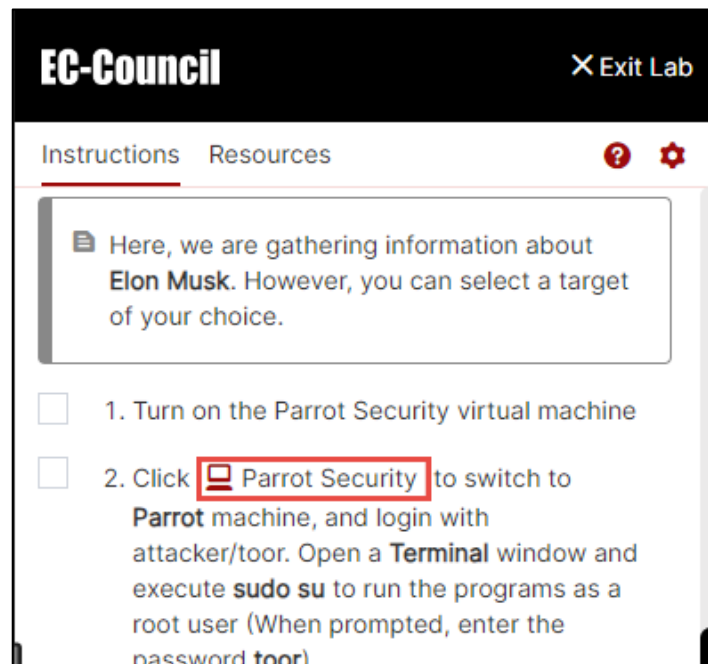

16. In the Labs page, you need to perform each step provided under the Lab tasks and check the provided checkbox.

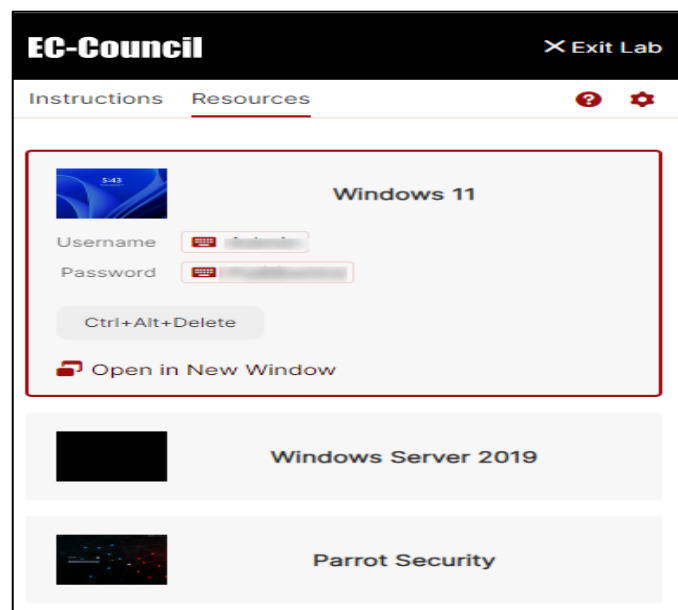

17. To switch between machines, present in the lab you can

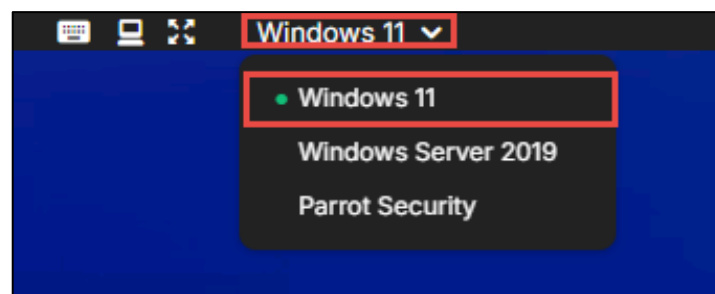

- Use the buttons present in the instructions

- Switch to the Resources tab and click on the desired machine, here, you will find the username and password of the machine, **Ctrl+Alt+Del** button to activate the machine and Open in New Window button to open the selected machine in new window.

- Click on the machine name drop down and select the desired machine

18. After completing each task, you will have questions pertaining to the previous task you need to enter the answer in the answer box and click on Score.
